SUMMARY

1 GENERAL	5
2 ACSI BASIC CONFORMANCE STATEMENT	6
3 ACSI MODELS CONFORMANCE STATEMENT	7
4 ACSI SERVICE CONFORMANCE STATEMENT	9

1 General

The following ACSI conformance statements are used to provide an overview and details about the CimWay built-in driver for IEC 61850, further referred to as "the Client":

- ACSI basic conformance statement,
- ACSI models conformance statement,
- ACSI service conformance statement.

The statements specify the communication features mapped to IEC 61850-8-1.

Together with the PIXIT, MICS and TICS, the PICS forms the basis for conformance testing according to IEC 61850-10.

The following documents are available separately:

- The Protocol Implementation Conformance Statement (PICS),
- The Protocol Implementation eXtra Information for Testing (PIXIT),
- The Model Implementation Conformance Statement (MICS),
- The Tissues Implementation Conformance Statement (TICS).

2 ACSI basic conformance statement

The basic conformance statement is defined in Table A.1.
